The Existing Problems for Promoting OSS

Why is OSS NOT being used widely ?

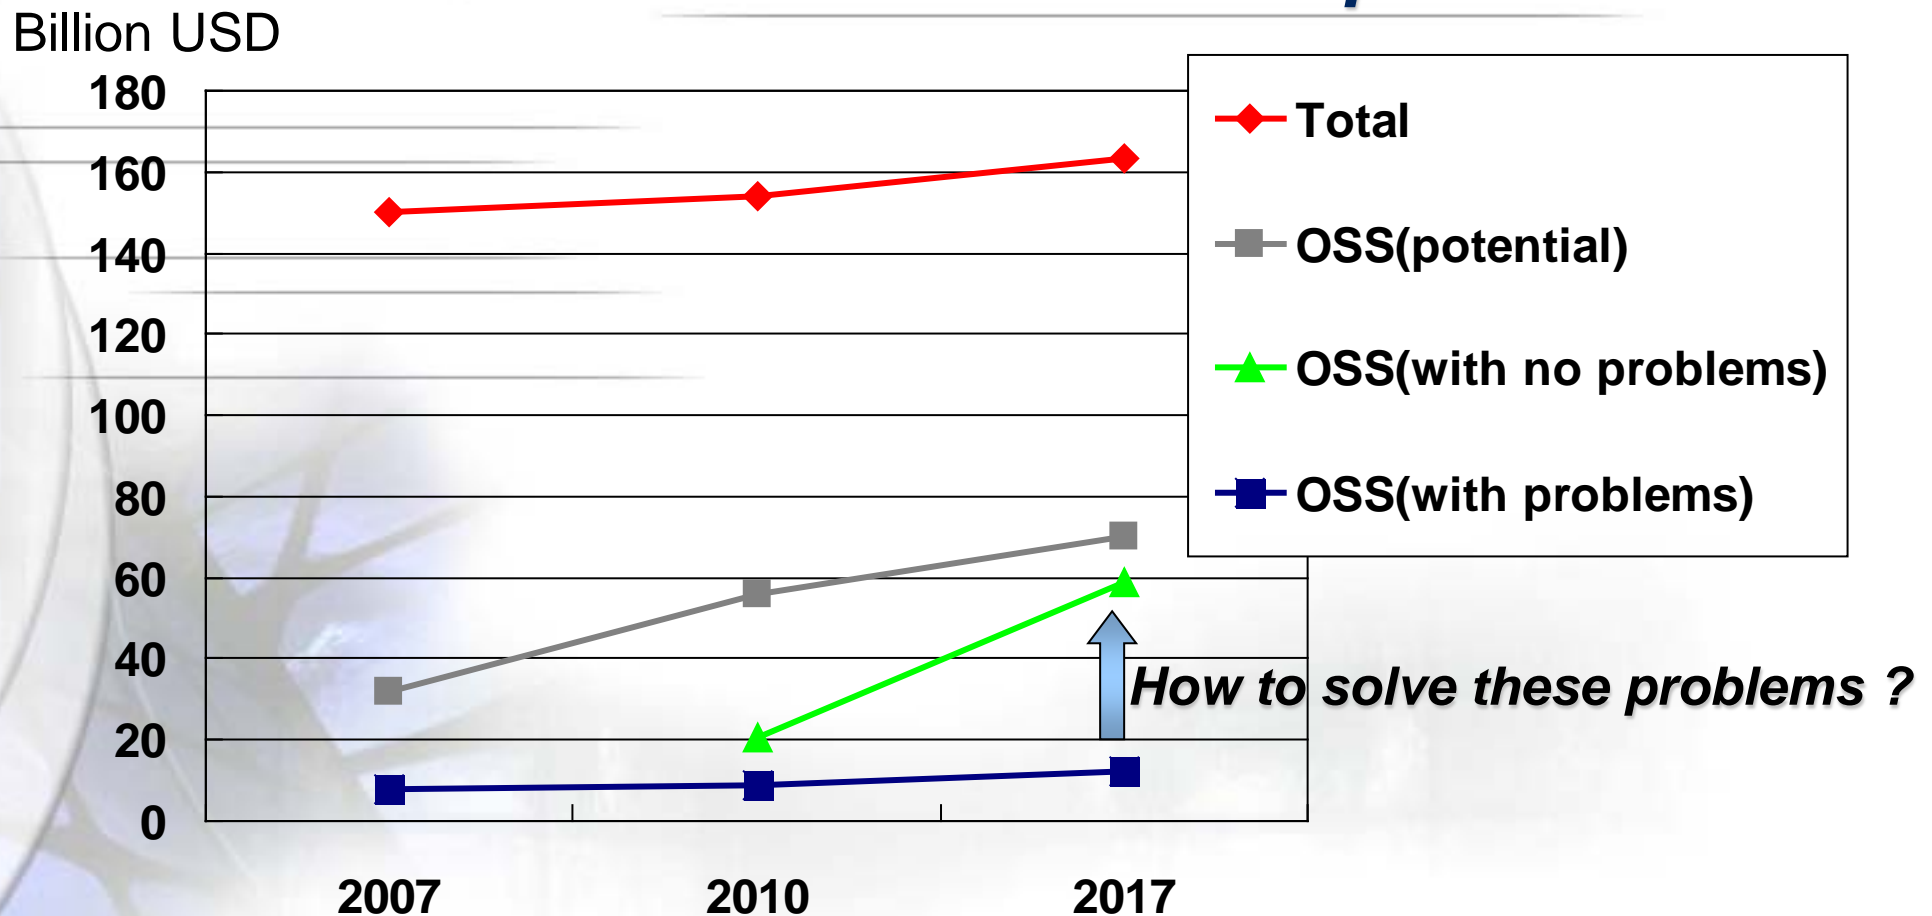

- ***Shortage of OSS staff***
- ***Lack of skills in OSS***
- ***Uncertain to support OSS***
- ***Complicated license of OSS***

Ref: Information technology Promotion Agency, JAPAN

The Potential of OSS Market in Japan

If we solve all of these problems...

Ref: Information technology Promotion Agency, JAPAN

How to Solve the OSS Problems

Problems are ...

- Shortage of OSS staff***
- Lack of skills in OSS***
- Uncertain to support OSS***
- Complicated license of OSS***

***What kind of situation
do you use OSS ?***

How to Solve the OSS Problems

Problems are ...

- **Shortage of OSS staff**
- **Lack of skills in OSS**
- **Uncertain to support OSS**
- **Complicated license of OSS**

**When it will replace
an existing system.**

Sales Management

Replace

How to Solve the OSS Problems

Problems are ...

- **Shortage of OSS staff**
- **Lack of skills in OSS**
- **Uncertain to support OSS**
- **Complicated license of OSS**

Why will you replace the system ?

Sales Management

Replace

OSS

How to Solve the OSS Problems

Problems are ...

- Shortage of OSS staff**
- Lack of skills in OSS**
- Uncertain to support OSS**
- Complicated license of OSS**

It is because there are some complaint in the system.

Sales Management

How to Solve the OSS Problems

Problems are ...

- Shortage of OSS staff**
- Lack of skills in OSS**
- Uncertain to support OSS**
- Complicated license of OSS**

**Why don't you add
the function to the system?**

Sales Management

How to Solve the OSS Problems

Problems are ...

- **Shortage of OSS staff**
- **Lack of skills in OSS**
- **Uncertain to support OSS**
- **Complicated license of OSS**

But it is generally expensive to add the new function to the proprietary software. Then, I want to use OSS. But ...

How to Solve the OSS Problems

Problems are ...

- **Shortage of OSS staff**
- **Lack of skills in OSS**
- **Uncertain to support OSS**
- **Complicated license of OSS**

So, you can use the database of the proprietary software.

Yes.

I can get all the data from the database.

Sales Management

How to Solve the OSS Problems

Problems are ...

- Shortage of OSS staff
- Lack of skills in OSS
- Uncertain to support OSS
- Complicated license of OSS

**That's great.
You can add the function
of the proprietary software
using the data.
If the Data Link Solution is used.**

Data Link Solution ?

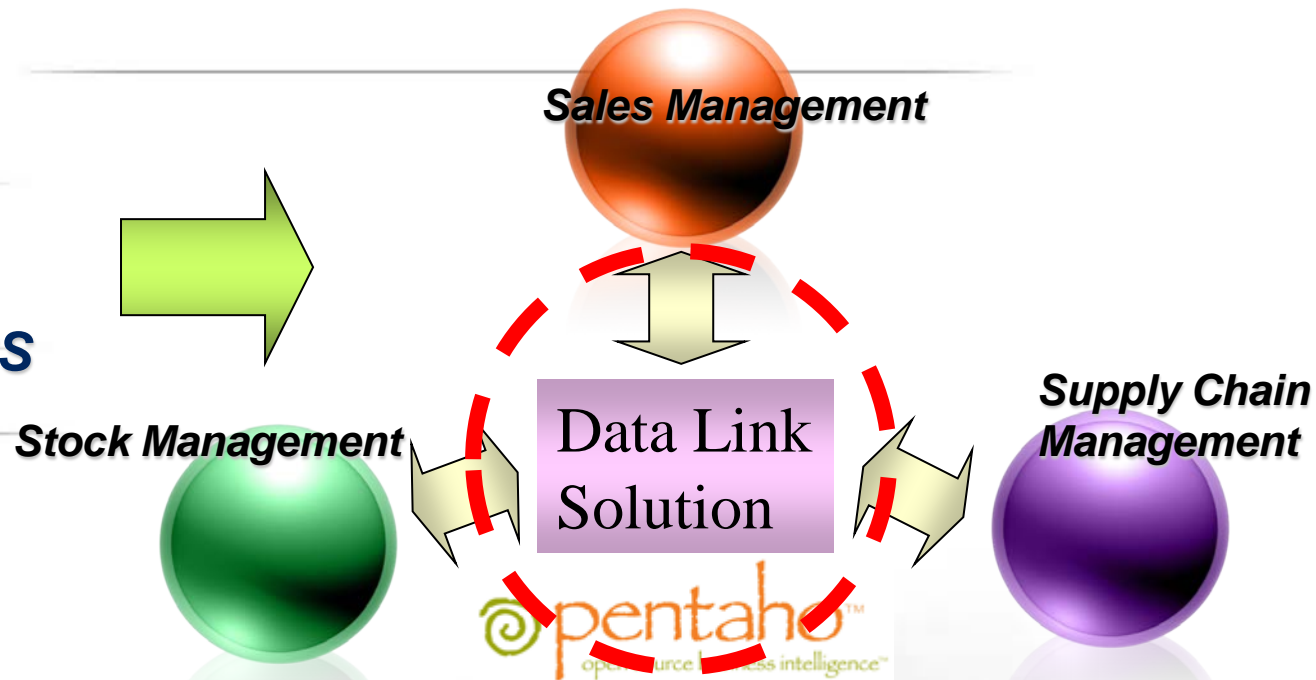

Sales Management

How to Solve the OSS Problems

Problems are ...

- **Shortage of OSS staff**
- **Lack of skills in OSS**
- **Uncertain to support OSS**
- **Complicated license of OSS**

The Benefits expected from this System are

- **Proprietary software can be used on a regular basis**
- **OSS cannot be seen from you.**

The approach will NOT affect the environment of the computer operators! They will not actually use the OSS.

Pentaho Outline

- ***Pentaho is an Open Source Software for Business Intelligence (BI) Suite.***
- ***Pentaho's function***
 1. ***Data Integration***
 2. ***Reporting***
 3. ***OLAP Analysis***
 4. ***Dashboards***
 5. ***Data Mining***
- ***Various Databases are supported. (Oracle, MS SQL Server, MySQL, PostgreSQL...)***

What is Data Integration of Pentaho

What was the profit of the project ?

In general,

Profits = 10 million USD - The salary of several employees

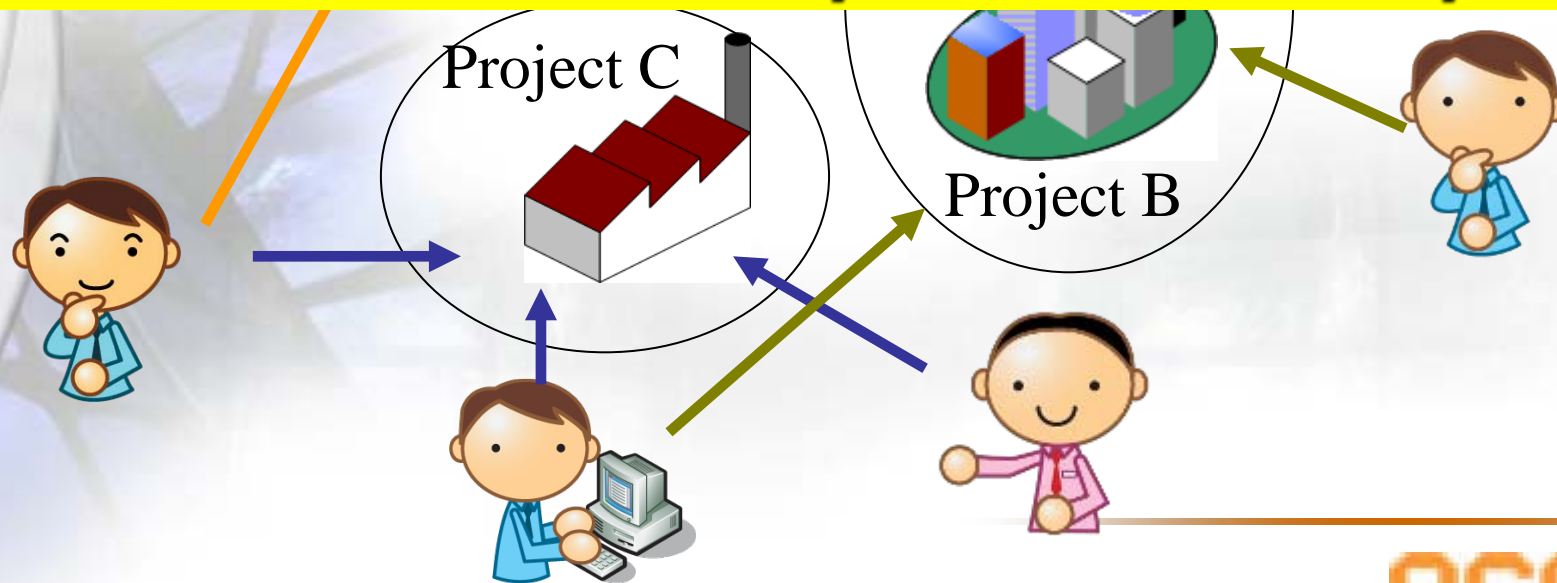

If some other employees had participated in other projects,
can you calculate the exact profits of each project ?

Complicated Calculation

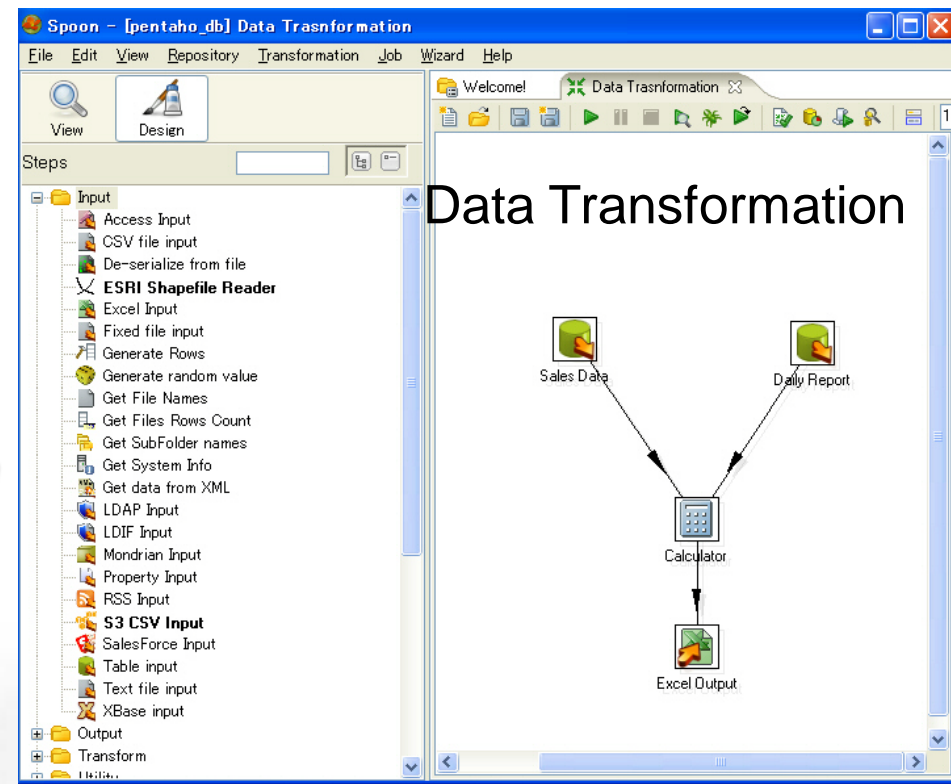

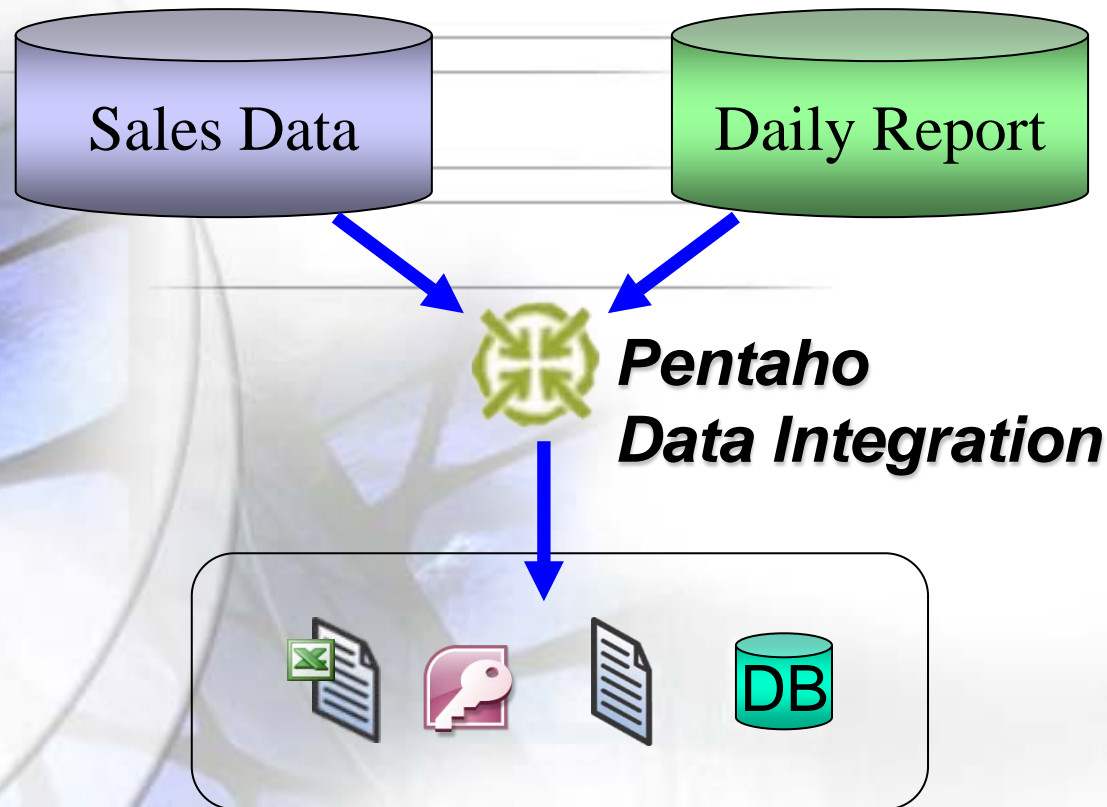

If some other employees had participated in other projects,

What will be the exact profits of each project ?

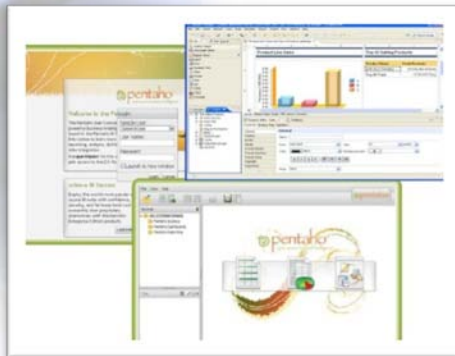

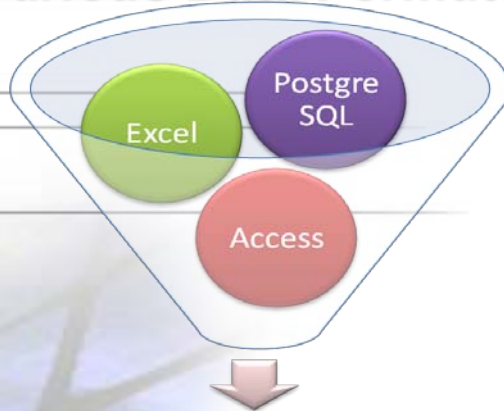

What is Data Integration of Pentaho

What is Pentaho Reporting

- **Output the report from database.**

Various Data Formats

Pentaho Reproting

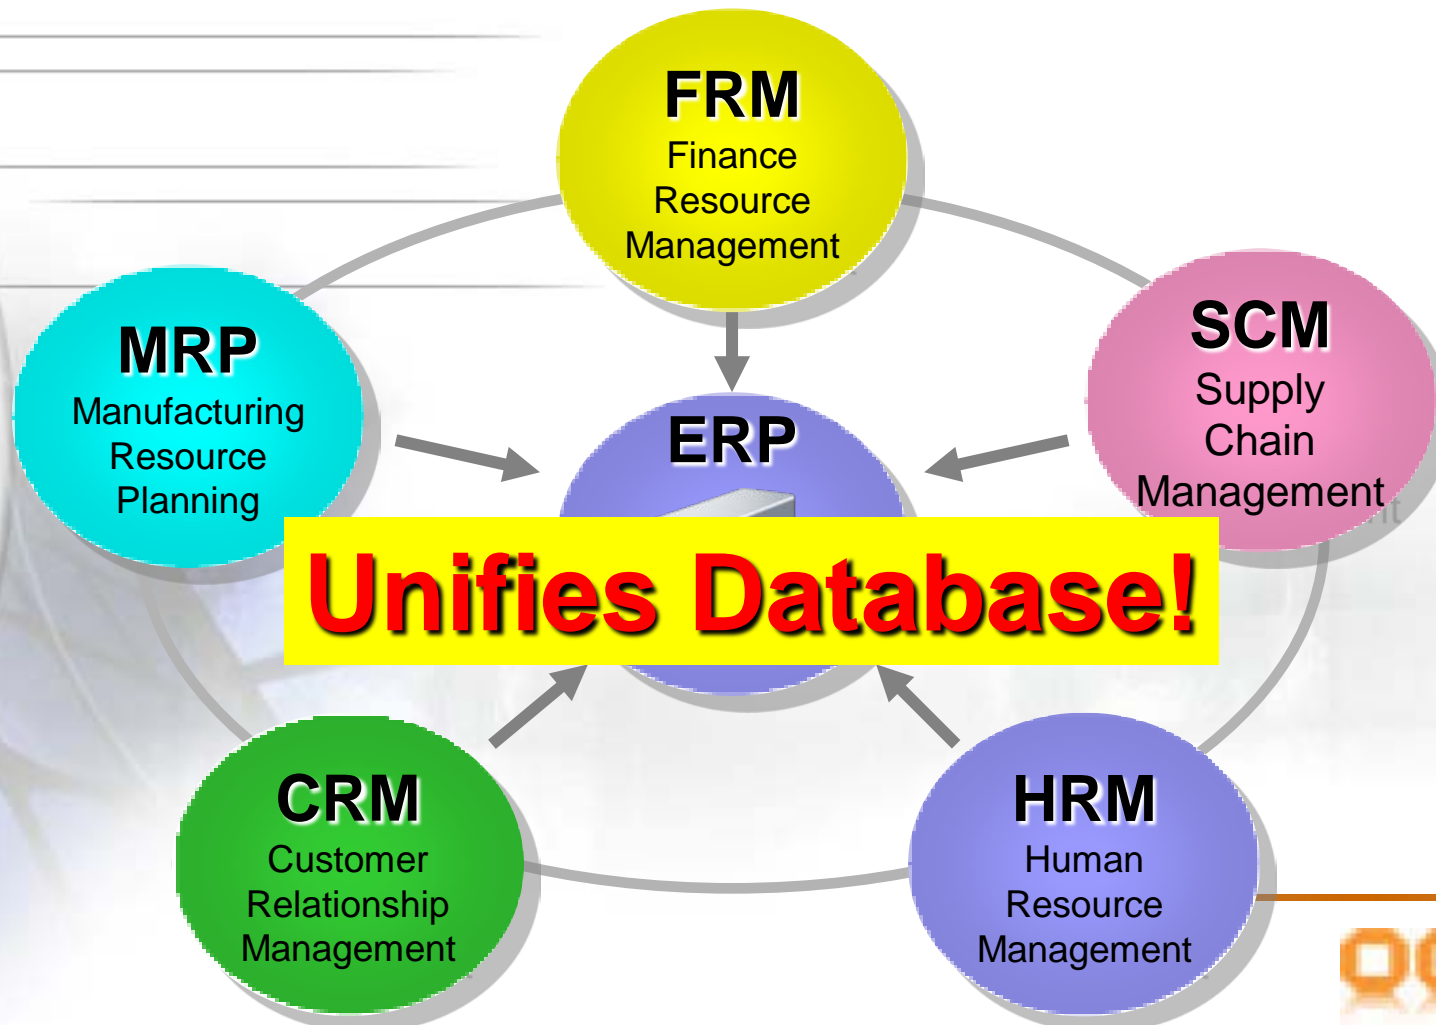

Reports

A screenshot of a report titled 'Steel Wheels'. It features a bar chart showing 'Total Sales by Month' and a table below it with columns for 'Month', 'Sales', and 'Profit'.

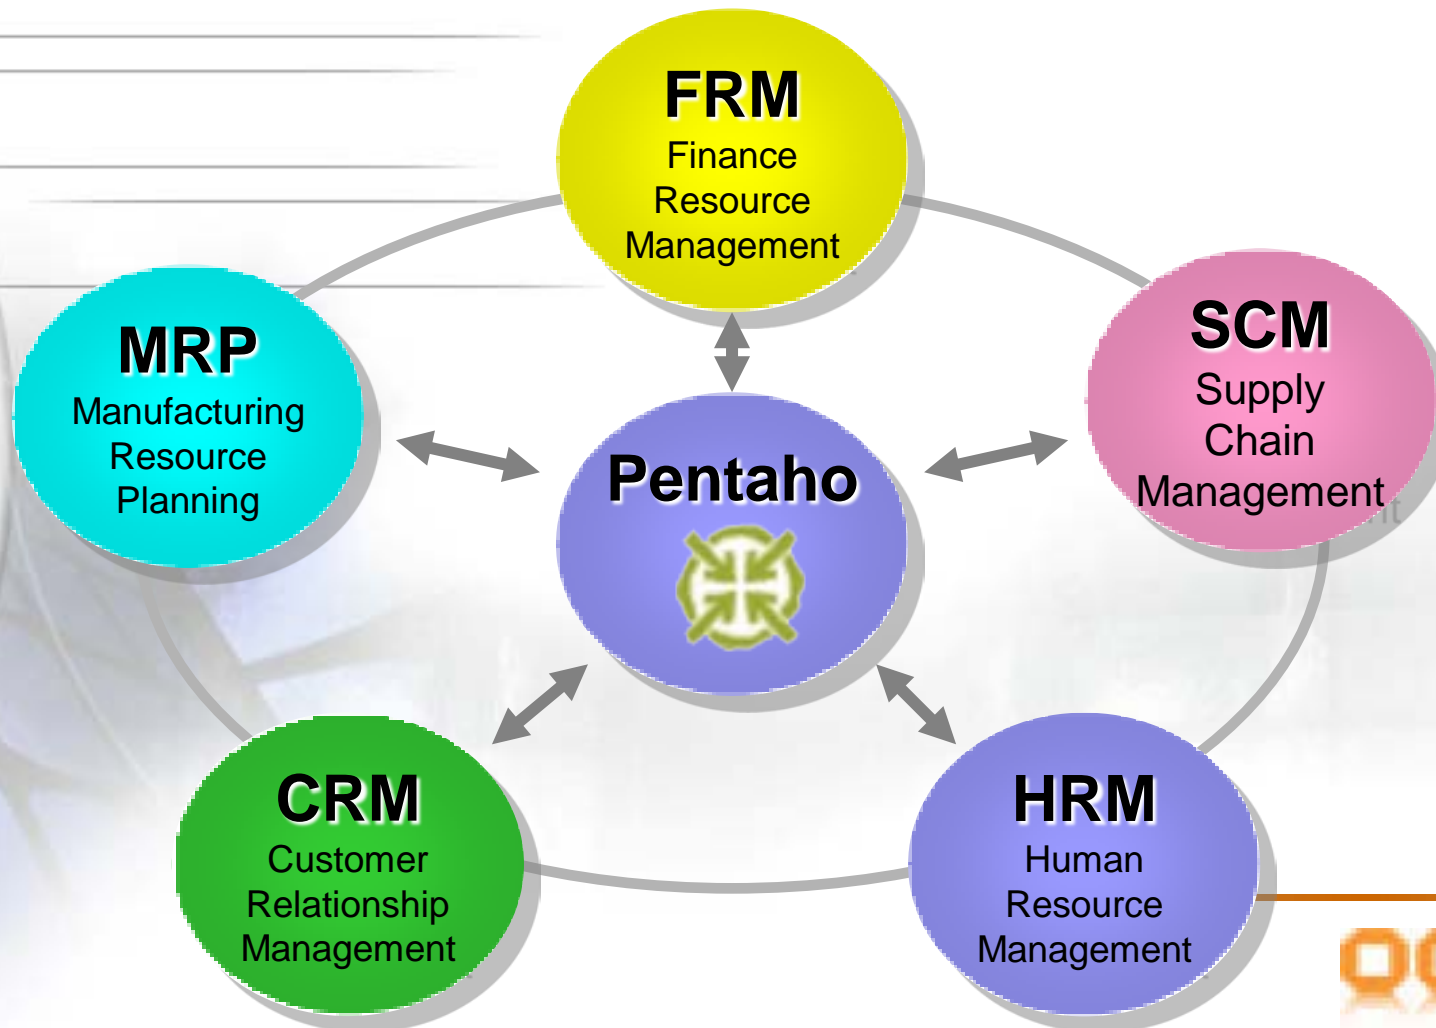

What is ERP ?

- **Enterprise Resource Planning (ERP)**

What you can expect from pentaho

- ***Enterprise Resource Planning (ERP)***

Which ERP do you want?

- ✓ ***Proprietary ERP Package***
(Will you buy an expensive software ?)
- ✓ ***OSS ERP Packages like Compiere, ADempier, ERP5, ...***
(Who can explain the most suitable software for you ?)
- ✓ ***Data linked ERP by using Pentaho***
(Uh... Who can help you with the data link ? It's me !?)

Advantage and Disadvantage

Proprietary ERP Package

- **Advantage**
 - Implementation to your company is very easy.
 - The package has many useful functions.
- **Disadvantage**
 - It is very expensive
 - Consultation
 - Software Package
 - Support
 - Education
 - Customizing
 - It may be necessary to change the workflow of your business to match the ERP.
 - Changing workflow will cause work confusion in the initial stage of the ERP implementation.

Advantage and Disadvantage

OSS ERP Package

- ***Advantage***

- Low cost
 - Installation
 - Software package
 - Support
- Customizable by the user

- ***Disadvantage***

- All ERP functions are NOT fully supported.
 - It may be necessary to add some functions to the ERP.
- It may be necessary to change the workflow of your business to match the ERP also.

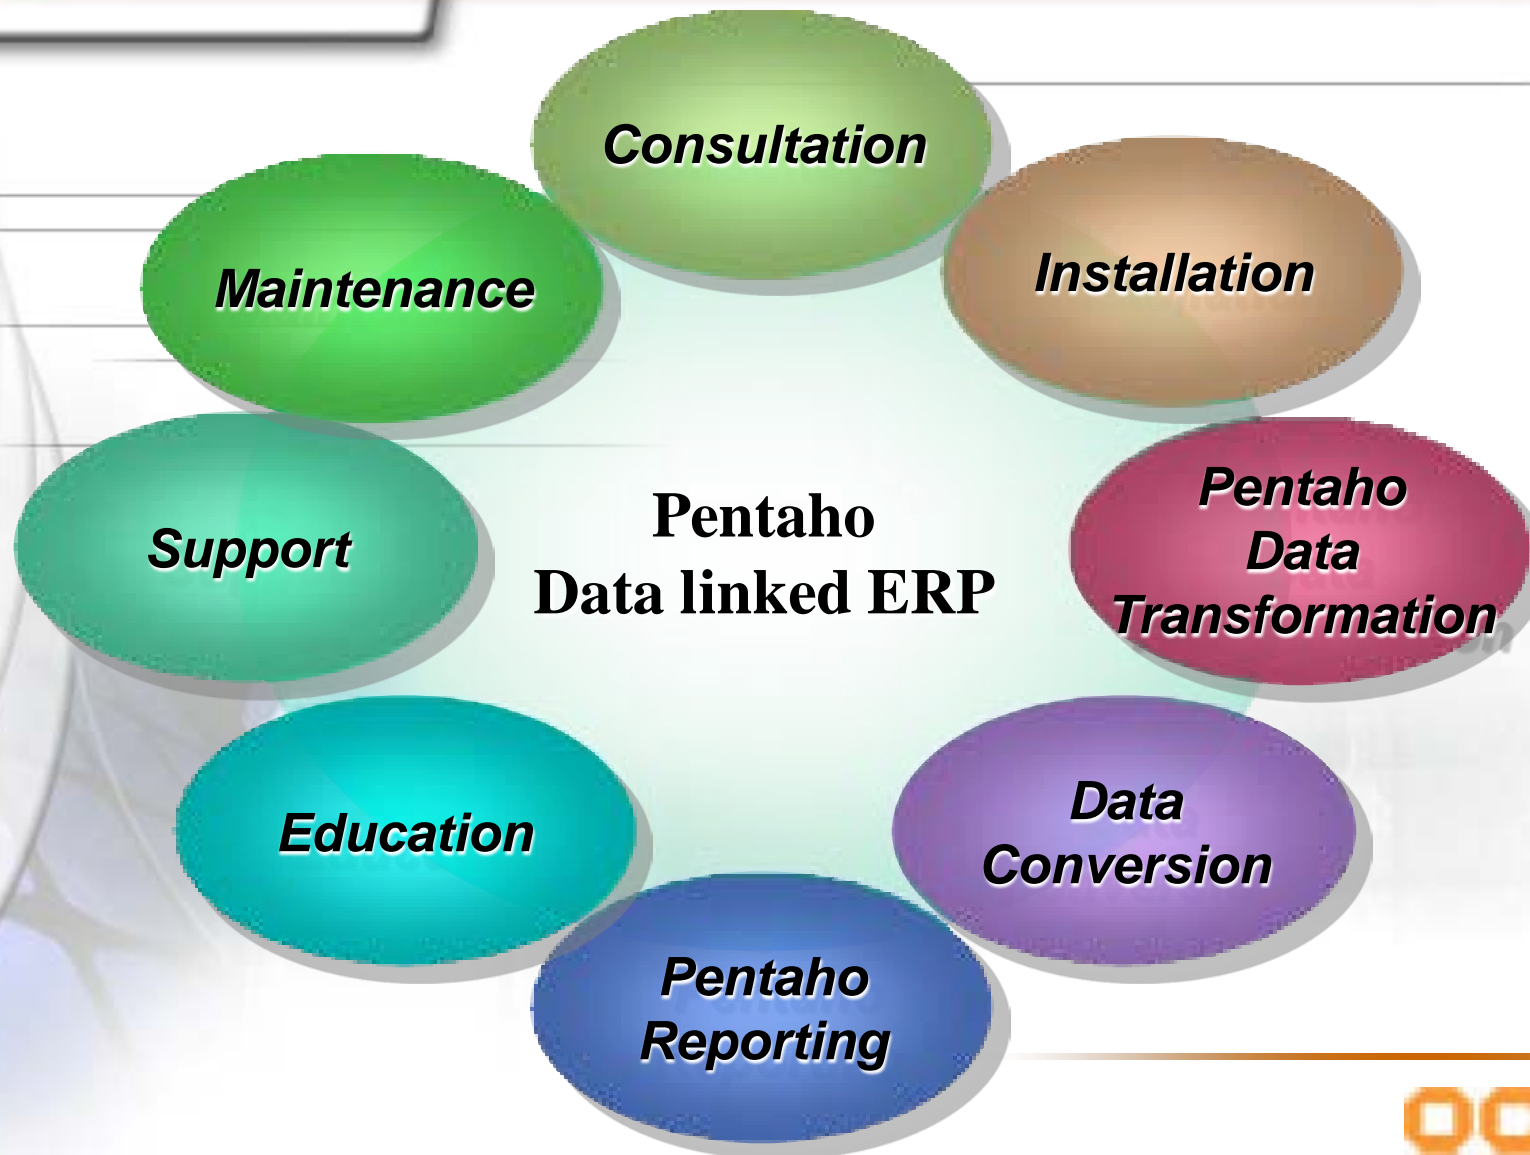

Advantage and Disadvantage

Data linked ERP by using Pentaho

- Advantage
 - User interface and workflow do NOT change.
 - Use it as usual !
 - Low cost
 - Especially, education cost!
 - Installation
- Disadvantage
 - Consultation of data link is required.
 - Upgrading the current proprietary software (FRM, SCM,...) may require the modification of Pentaho Data Transformation logic due to the change in the data format.

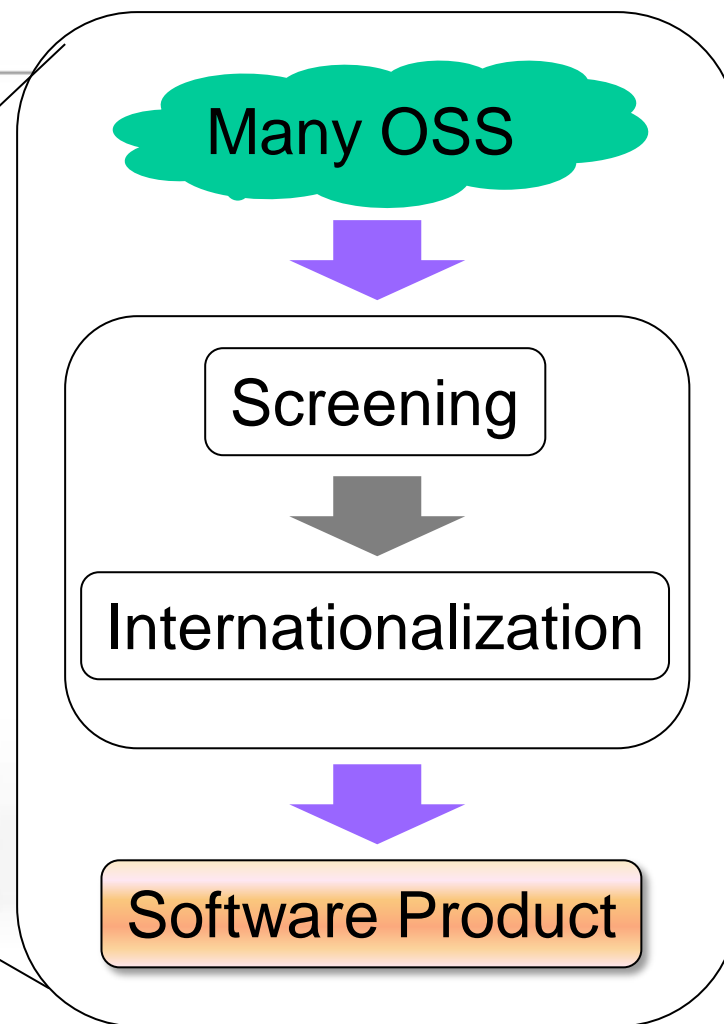

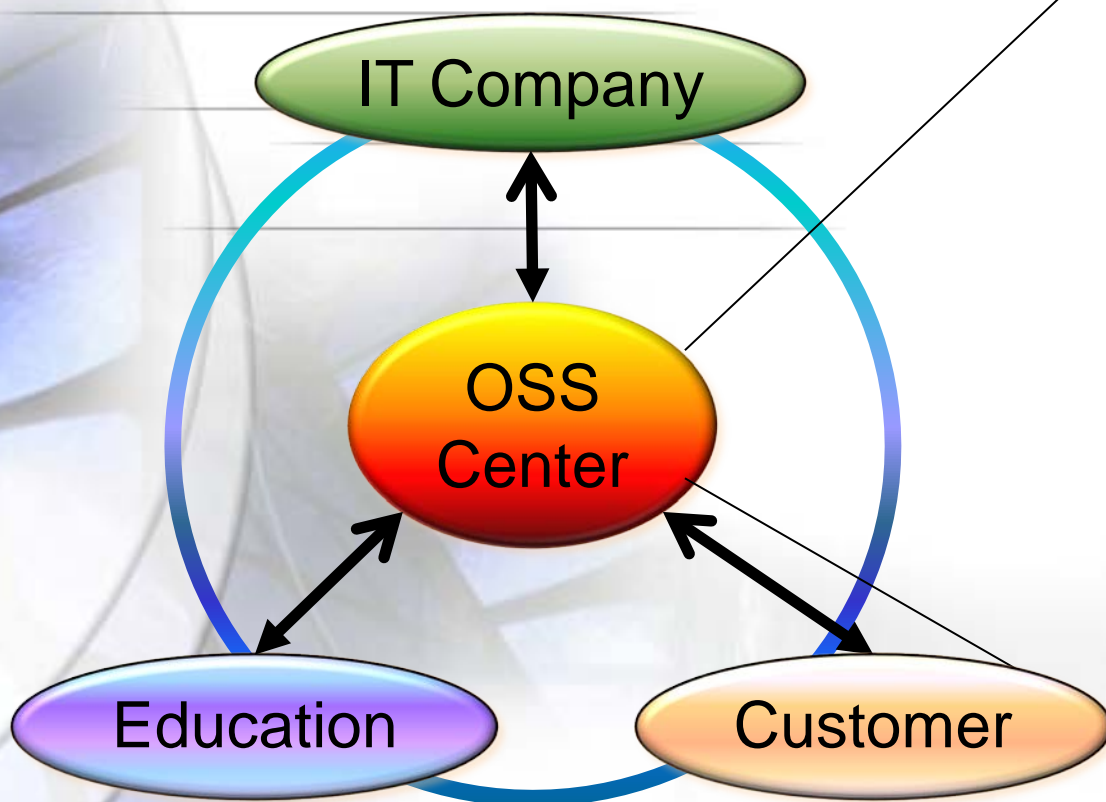

OCC Pentaho Business Model

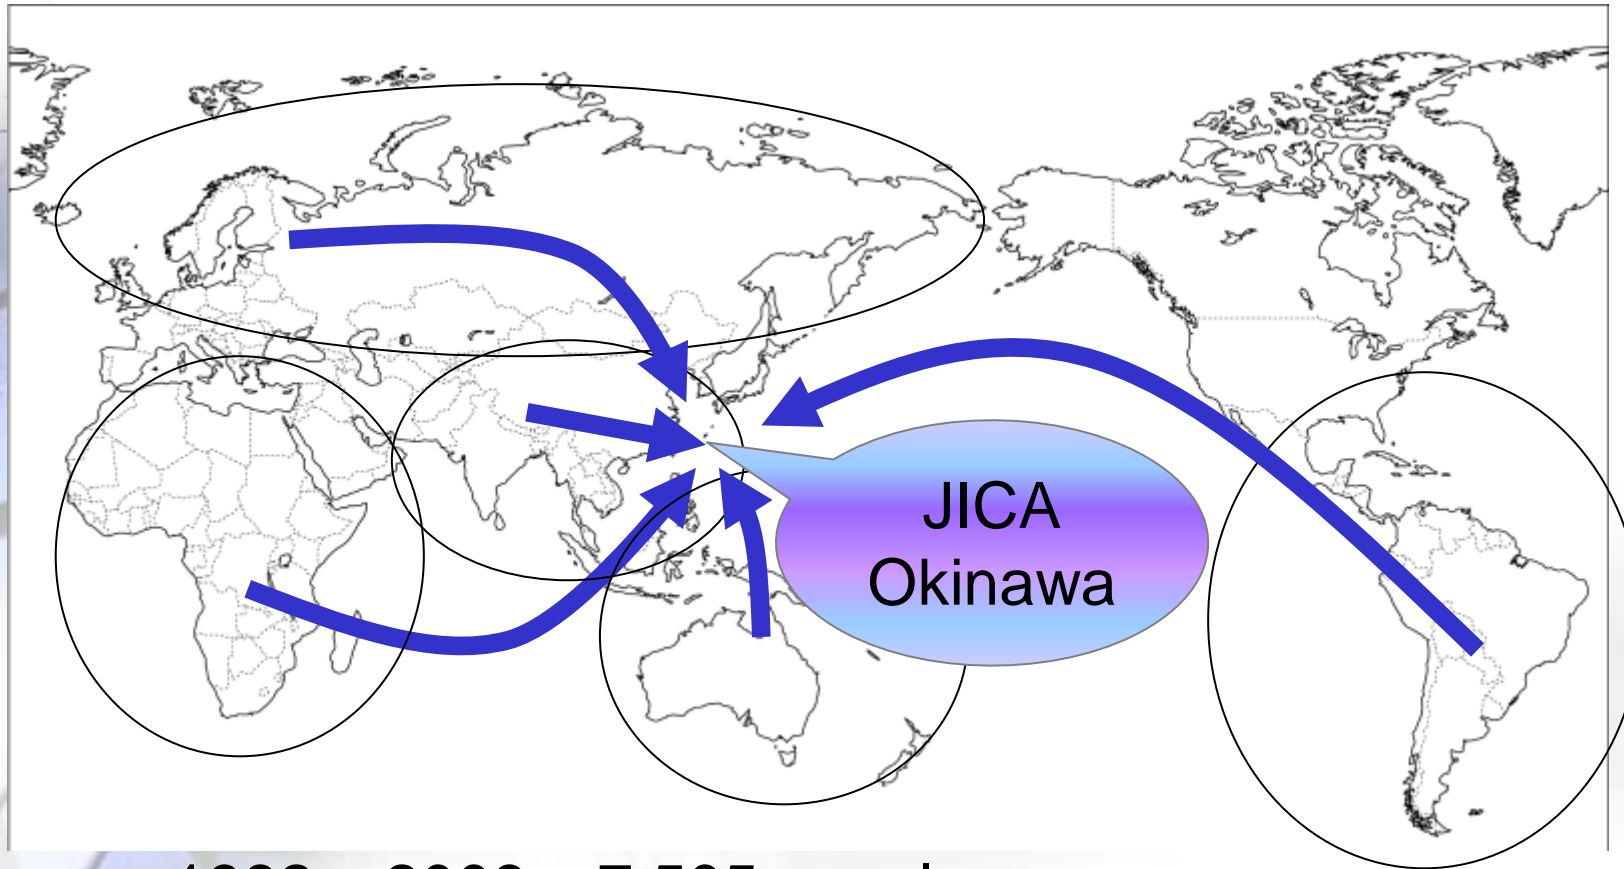

Okinawa OSS Center

The center will be held in January of next year.

JICA Okinawa

1982 – 2008 7,505 people
157 countries

Summary

- Pentaho Data Integration is connectible with various databases (Oracle, MS SQL Server, MySQL, PostgreSQL,...) and perform complicated calculations.
- Pentaho Reporting can output various reports easily from various data formats.
- By using Pentaho, you can get the same results as the proprietary ERP without having any education for new ERP package.
- Okinawa OSS Center
- JICA Okinawa

Thank you for listening !
